## AMERICAN CAPTURED BY HIGHWAYMEN

### HERRIN RIOT IS INVESTIGATED BY OFFICIALS

County Officers Take No  
Action To Apprehend  
Men Responsible.

#### VICTIMS ARE BURIED

Mine Superintendent Killed  
Union Miner, Coroner's  
Jury Charges.

(By the Associated Press)

HERRIN, Ill., June 26.—Investigations seeking to fix the responsibility for the rioting which cost at least twenty-one lives at the Lester strip mine last week, learned today from Sheriff Melvin Thaxton that neither he nor his deputies took any steps to prevent the massacre.

HERRIN, Ill., June 26.—Williamson county buried its dead in her latest mine war yesterday, conducted an inquest to determine how each met his death, and today face the responsibility of bringing the guilty to justice.

With not a single arrest made since the massacre of last Thursday, when at least nineteen men were killed after strike sympathizers stormed the Lester mine, with county officials making no visible effort to place the blame, the investigation is being conducted by state and federal agents.

Representatives of the department of justice, department of labor, the state attorney general's office and the adjutant general's office are quietly delving into the cloak of secrecy which so far has surrounded the identity of the 5,000 men who marched from Herrin in broad daylight, took more than fifty men prisoner, marched them back down the road into a wood and there killed 19 and wounded nearly as many more.

Yesterday six men of Williamson county—three miners, a merchant, an electrician and the superintendent of the Herrin waterworks—were solemnly empaneled, listened to the evidence of witnesses called by Coroner William McGowan, and returned their verdict.

They found, and such was recorded, that C. K. McDowell murdered superintendent of the Lester mine, killed a union miner on Wednesday, the day before the massacre. Of the other strikers, the jury found they came to their death by gunshot wounds inflicted by unknown persons.

Yesterday morning, sixteen unknown dead, all non-union workers and guards at the Lester mine, were buried by the county at Pottersfield. On a bleak hillside beneath a broiling sun, union miners, led by State Senator William Sneed, dug sixteen shallow graves—four rows of four each.

The bodies of the massacre victims, placed in plain black caskets, were placed side by side on the grass. Four prominent ministers of Herrin, a Methodist, a Baptist, a Presbyterian and a Christian, conducted the brief funeral service, while a hundred overall-clad miners and a dozen newspaper correspondents looked on. On a distant hill three women in starched summer dresses who watched the burial, gave the only touch of color.

The brief ceremony over, the miners hurried away to their waiting flocks. The overall-clad miners shoveled the dirt over the rough pine boxes. No flowers graced the graves. But at the head of each the undertaker stuck a little metal sign with a glass covered card. On each was the date "June 22, 1922." For each numbered card, the undertaker preserved a description of the men buried beneath, if relatives should appear to claim him.

### Wife of Governor Len Small Dies From Stroke of Apoplexy

(By the Associated Press)

KANKAKEE, Ill., June 26.—Mrs. Len Small, wife of Governor Small of Illinois, died at 8 o'clock this morning.

Mrs. Small was stricken with apoplexy Saturday night during the exciting incident of the celebration by friends and fellowtownsmen as a result of his acquittal that afternoon at Waukegan, Ill. With her at the time of her death was Governor Small and their three children, Leslie and Bud Small and Mrs. A. E. Ingles, all of Kankakee.

### CLYDE D. JONES RETURNS FROM TRIP TO PACIFIC

Clyde D. Jones, formerly of Ada but now head of the manual training department of the Beaumont, Texas, high school, is shaking hands with Ada friends for a day or two. "Pat" has just returned from a trip with the Shriners to the Pacific coast. The trip was made by way of Minneapolis, the Canadian Pacific, and included most of the cities and places of interest on the Pacific and mountain regions.

"Pat" was formerly a star on the East Central base ball team and otherwise made an enviable reputation in the local institution.

### EAST CENTRAL'S GAIN GREATEST

Ada College Outstrips All  
Other State Schools in  
Percentage of Growth

No college institution in the state of Oklahoma succeeded in surpassing the East Central college of Ada in an increase in summer attendance, according to figures released by R. H. Wilson, state superintendent of schools. Durant State Teachers College was the nearest contender for first honors in attendance records with 53 per cent increase, while Ada had 55 per cent.

With the exception of Durant, Ada is also first in numerical growth.

Dr. A. Linscheid, president of the local institution made a statement today concerning the advance of student enrollment here. He had figures from the state superintendent's office showing that with the University of Oklahoma included, Ada college had grown more rapidly than any.

According to his figures Ada college was first with 534 more students, or 55 per cent increase; Durant college was second with 672 more students, or 53 per cent; Alva college was third with 315 more students, or 39 per cent. A. and M. College had 1150 as compared with 850 last year, or 35 per cent; Weatherford college was fifth with 288 more students or 34 per cent increase; University of Oklahoma was sixth with 488 or 30 per cent; Tahlequah college was seventh with 233 or 24 per cent and Edmond college was last with only 312 more students, or an increase of 18 per cent.

These figures also show that out of 3,142 more people attending college this year in the state than attended last year, East Central received the second largest number. Dr. Linscheid's statement also pointed out that in percentage of increase in attendance East Central headed the list, leading Durant by two per cent, Edmond by 27 per cent, and the University by 25 per cent.

In regard to the accuracy of the figures, Dr. Linscheid said that all colleges charge the same admission fee, which is deposited with the state treasurer and thus the state superintendent gets the absolute correct figures from this.

In conclusion his statement said: "After all the proper way of estimating growth of any institution or enterprise is that of percentage, and it is certainly gratifying that with all the institutions of the state growing at a rate unparalleled in the history of the state, East Central has succeeded in growing more rapidly than any other institution."

### Churchill Lays Blame for Troubles On the Republicans

(By the Associated Press)

LONDON, June 26.—Winston Churchill, secretary of the colonies, rose to make his promised statement of Irish affairs in the house of commons this afternoon, and said the governor desired the freest and full debate on what could be termed a debate.

Mr. Churchill declared he did not hesitate to say that all the horrors that had occurred in Belfast were due to the organizations in that territory of the two divisions of the Irish republican army and the continuous efforts of the partisans of the south to down the Ulster government and for Ulster against her will to come under the rule of Dublin.

### 11 ARRESTS MADE FOR RATHENAU'S ASSASSINATION

(By the Associated Press)

BERLIN, June 26.—Eleven persons alleged to be members of a Bavarian organization known as the "council" were arrested here yesterday, police announced today. The police expressed the opinion that this organization was implicated in the murder of Foreign Minister Rathenau last week.

### "THAT'S THAT!"

### CHILD DIES IN AN OIL WELL

Drops To Bottom of 180  
Hole; Efforts at Rescue  
Are in Vain.

WICHITA FALLS, Tex., June 26.—The body of a little 4-year-old Randall Gandy, who fell into an oil well at Electra last night, was recovered today, grappling hooks being used to pull the body from the 12-inch hole.

The mother, confined to her bed at Burk Burnett, with an infant but a few days old, was not told of the accident until today.

FT. WORTH, Tex., June 26.—Randall Gandy, 4, met death 180 feet below the surface of the earth in the McKenzie oil well, two miles east of Electra last night, while 5,000 frantic people vainly tried to rescue him.

The little boy, who lived in Engletho, was playing in the vicinity of the well. A friend had a fleeting glimpse of him as he fell, first into the hole. A moment later his voice could be heard from the bottom pleading with "daddy and mother" to come and get him.

The mother lies in a Burk Burnett hospital with an infant a few days old. She does not know of the lad's tragic death. The father is Lee Gandy, who for hours directed the citizens in their efforts to devise some method of rescuing the boy.

The boy fell into the hole at 8:30 o'clock. The last faint cry from him was heard at 11 o'clock. Water had entered the hole and although faint from being long lodged in the hole, the lad was forced to watch the slowly creeping waters engulf him and exterminate his life. Grappling hooks could not be used in rescuing him because it was feared they would mangle the body. Several young men volunteered to be lowered head first into the hole, but none were small enough to reach the boy. The hole at the top is ten inches.

At midnight when it became definitely known the boy was dead, efforts to reclaim the body were abandoned until this morning, when work was resumed.

### NEGRO LYNCHED NEAR PARKVILLE SOUTH CAROLINA

(By the Associated Press)

AUGUSTA, Ga., June 26.—A negro named Self, accused of assaulting a white man, was lynched today near Parkville, S. C.

### IN THE OIL FIELDS

Fred H. Inman, prominent oil man, this week resumed drilling on his holdings east of Stonewall on the John Sears farm, about forty feet from the well drilled last year in Sec. 7-2-8 in Coal county.

A depth of about 200 feet had been reached at the hour of going to press, and 12 1-2 inch casing has been set. Those in charge of the work believe the first thousand feet will be reached in record time, since they are thoroughly familiar with formation to that depth. When the old well was abandoned, due to the fact that it was badly caved in, the drill was in an oil sand, and those interested are anxiously awaiting developments in the new well.—Stonewall News.

Russell and others are drilling at 2515 feet in their test on the Thompson farm in section 36-5-1e west of Byars. They are now on what they believe is a cap rock, and are getting ready to drill in. Indications are reported to be favorable.

George Orr is drilling at 800 feet on the Wantland farm in section 1-5-2w in an absolutely dry hole. No water trouble has been encountered.

Thompson & Brown have let a contract for a test just west of Stratford in section 5-3n-3e. These men are from Oklahoma City and are reported to be prepared to make a good test.

### HAMBONE'S MEDITATIONS

OKLAHOMA WEATHER.  
Partly cloudy to cloudy tonight and Tuesday.

### SEC. WEEKS IS SCORED BY DRYS

Statement Favoring Wines  
and Beer Calls Forth  
Protest.

(By the Associated Press)

OKLAHOMA CITY, June 26.—A protest against recent alleged statements of Secretary of War Weeks favoring the legalization of light wines and beer was voiced here today by the regimental conference of the anti-saloon league and sent by telegraph to President Harding. The telegram follows:

"The regimental law enforcement conference of the anti-saloon league in session in Oklahoma City with delegates present from the states of Arkansas, Texas, Oklahoma, Kansas, Louisiana and Missouri, does most earnestly protest against recent utterances of Secretary Weeks in favor of wines and beer."

"Such a sentiment expressed by an official of the executive department of our government encourages lawlessness and is disloyal to the fundamental laws of the land."

Simultaneous with the dispatch of the message to the president, instructions were wired by Dr. P. A. Baker, general superintendent of the league to every state superintendent in the United States and Hawaii to send similar protests to the White House today.

The conference opened today with prohibition advocates from all states represented at the conference. The gathering is the third of six similar meetings to be conducted before the coming congressional election at which plans are to be laid for defeat of candidates favoring modification of the Volstead law, it was said.

Frank V. Ebbert of San Francisco attorney for the Pacific coast department of the league which he represents, told the conference today of the progress of the work in these departments in the northwest. Mr. Ebbert declared very little liquor is being transported into the United States from Canada in the Pacific northwest.

### TEACHERS TO BE BANQUETED SOON

The banquet which is to be given by the Lion's Club to the faculty of the summer term of the East Central Teachers College will be held in the near future, the exact time to be announced later. It was the impression of some of the citizens that this would be held tonight but arrangements could not be completed.

### McKEOWN WELL RECEIVED BY SAPULPA DEMOCRATS

Papers of Sapulpa state that Tom D. McKeown made a very favorable impression at that place a few days ago at a meeting of the Democratic club. He made an old fashioned democratic speech and told where he stood on various issues of the present campaign. He criticized the administration for its vacillation on the soldiers' bonus and advocated the payment of the bonus from interest received on foreign loans. He made this proposal when in congress and no better method of raising the necessary money for this purpose has yet been devised.

### GORDON MURDER CASE IS CALLED

A. & M. Student Faces  
Trial on Charge of Kill-  
ing Fellow Student

(By the Associated Press)

STILLWATER, June 26.—A special venire of 34 men called for the trial of Earl Gordon, Oklahoma A. and M. college student, charged with the murder of Beckham Cobb, a fellow student, had been exhausted at noon today, with 11 tentative jurors in the box against whom 10 pre-emptory challenges yet remain to be exercised. District Judge E. C. Smith issued an order for summoning of an additional panel of 24 men just before court recessed until the afternoon.

All who were in the jury box when recess was taken were elderly men with families. Fifteen were removed during the morning for various causes and eight by pre-emptory challenges.

Brown Moore, chief counsel for the defense, stressed the question of belief in the law of self defense in his examination of prospective jurors.

John Vaughn, county attorney of Payne county, who is representing the state, asked each man if he believed in capital punishment, if he had been in the world war or if he had a son in the conflict.

Cobb's 18-year-old wife arrived today from the home of his parents in Birmingham, Ala. No announcement was made as to whether she would testify.

STILLWATER, June 26.—Earl Gordon, 25, of Miami, Okla., was to face trial in district court today, charged with murder of Beckham Cobb, 24, a fellow student at A. and M. College, who was slain on the college campus last May 3. He was expected to plead self defense. Gordon and Cobb were veterans of the world war, sent here by the government for vocational training. At the time of the killing, Cobb was said to have been forcing Gordon to accompany him home to make an apology to Cobb's 18-year-old wife for an alleged insult.

Gordon, at his preliminary trial, denied insulting Mrs. Cobb and claimed to have shot Cobb when the latter threatened him with a revolver. Since the hearing, Gordon has been held in jail without bail.

Authorities expected Mrs. Cobb, who has been at her home in Birmingham, Ala., to be there for the trial, although it was reported she had decided not to come. Both sides have summoned a number of witnesses.

### SHERIFF ORGANIZES FORCE TO RESIST ATTACK ON JAIL

(By the Associated Press)

FAIRMOUNT, W. Va., June 26.—The entire Fairmount police force and the Marion county deputy sheriffs were mobilizing at 11:30 o'clock this morning to stop a reported march of striking miners and sympathizers from Monogah, a mining town ten miles to the south. The authorities said they had been informed an attempt would be made to liberate 91 prisoners from the county jail. These men were arrested last Friday, following the march of strikers throughout the county.

### OKLAHOMA CITY MAN DIES FROM BURNS

(By the Associated Press)

OKLAHOMA CITY, June 26.—Mack E. Stewart, district manager for a local accountant concern, died in a hospital this morning from burns received last night when a gas stove exploded in the basement of home. His wife, who was in the basement at the time of the explosion, suffered severe burns about the limbs.

The Stewart home was destroyed by fire which followed the explosion.

Forged money recently discovered in France had been buried in the ground for several weeks to give it a used, dirty look.

### AMERICAN HELD FOR RANSOM BY MEXICAN BANDITS

Party Robbed, Women Re-  
leased and Two Men of  
Company Carried Off

#### RAIDS AT MORELOS

Mexican Government Sends  
Troops in Pursuit of  
Fleeing Highwaymen

(By the Associated Press)

MEXICO CITY, June 28.—A. Bruce Bielaski, chief of the bureau of investigation of the United States department of justice during the war is being held for ransom by seven bandits, who held up his automobile seven miles west of Guernavaca, in the state of Morelos, yesterday.

Mr. Bielaski, together with his wife and Mr. and Mrs. Manuel Barcena of Mexicala, was on the way to view some Aztec ruins near the town. The motorists were nearing Hacienda de San Gabriel when the bandits suddenly appeared and stopped them at the point of guns. The women were released but not until they had been robbed, and the bandits took Mr. Bielaski and Mr. Barcena with them.

When the news reached this city, the American charge de affaires, George T. Summerlin, immediately communicated with the authorities at Guernavaca as well as getting in touch with the federal government and Secretary of War Surran, who ordered the federal troops in the vicinity to start after the bandits.

Mr. Bielaski, who is no longer connected with the American government, is now vice-president of Richmond Leverin and company, which has extensive oil holdings near Mexico City and Tampico. Mr. Barcena is an attorney with racing interests at Tia Juana.

Washington Officially Notified.  
WASHINGTON, June 26.—The capture of A. Bruce Bielaski, head of the department of justice investigation service during the war, by Mexican bandits, was officially reported to the state department today by the consul general in Mexico City. The message gave no details.

Mystery Surrounds Capture.  
MEXICO CITY, June 26.—Mystery still surrounded today the kidnapping and holding for ransom of A. Bruce Bielaski, chief of the bureau of investigation of the American department of justice during the war and Manuel Barcena, an attorney, near Hacienda de San Gabriel, in the state of Morelos.

Mrs. Bielaski has merely stated that the holdup occurred yesterday, and she pleaded physical exhaustion as an excuse from making a lengthy statement. He declined to name the sum of the ransom demanded or to give out any other information, merely stating that the affair was in the hands of the American embassy.

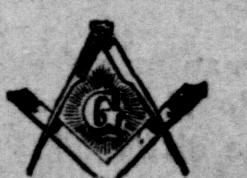

One rumor circulated here was to the effect that Mr. Bielaski was an ordinary prisoner of civil authorities in some obscure village in Morelos. Another was that he was being held at the instigation of his personal enemies, gained while actually engaged in his official capacity with the United States government.

Ransom Money Furnished.  
NEW YORK, June 26.—Ten thousand pesos (\$5,000 American money) is on the way from Mexico City into the Cuernavaca hills to ransom A. Bruce Bielaski, who was seized by bandits, it was announced today by Frank L. Sample, vice-president of the Ramond, Leveridge & Co., the concern of which Bielaski is an official.

Mr. Sample said that he was notified through an American bank at Mexico City that it was "taking care of the ransom" and would hurry it to Cuernavaca.

In the seventeenth century absence from church was a punishable offence.

### Notice Masons

Called communication Ada Lodge No. 119, A. F. & A. M., this evening at 8:00 o'clock to work in the Master's degree. Visiting Masons welcome.—F. R. LAIRD, W. M.

## BIBLE THOUGHT OF TODAY

A CURE FOR WORRY:—Be careful for nothing; but in every thing by prayer and supplication with thanksgiving let your requests be made known unto God. And the peace of God, which passeth all understanding, shall keep your hearts and minds through Christ Jesus.—Philippians 4: 6, 7.

## THE KAISER'S VERSION.

And now the kaiser's memoirs are soon to be published. It is not likely that he will grow rich from the royalties he will receive, because the public knows in advance that the whole tenor of his story will be to lay the blame of the war on the shoulders of the Allies. The public knows that there will be little in the book that can be accepted for the truth and while through curiosity many will read it no one will think of accepting it as authoritative. The kaiser stands convicted in the eyes of the world as working always towards the attainment of world power so that his name might go down in history as the one man who conquered and ruled the world. In his palmy days he erected many statues of his grandfather, William I, labeling each "William the Great," although there was nothing particularly great about the old man who had Bismarck as the bulwark of his reign. However this paved the way for other statues the kaiser fondly expected to see erected at a later date which would be labeled "William the Greater."

## EAST CENTRAL LEADS.

It is highly gratifying to the friends of East Central college to note that in joint of percentage of increase in enrollment for the summer term this school has outstripped all other state schools. There can be little doubt about the accuracy of the figures, for they are official, and they speak for themselves. All schools have made a great gain this year, indicating an ever increasing interest in the matter of education, but East Central has made the best showing of all. This indicates that the character of the work done here is proving popular with those who want the best.

President Lewis of the miners union declares that the union is in no way responsible for the massacre at Herrin, Illinois. If this is the truth it is up to the union to help run to earth and punish the perpetrators of the fiendish affair. Otherwise the union will be in the attitude of abetting the massacre and the mind of the public will be more inclined than ever to favor the open shop. Labor unions have accomplished much good and have done much to improve the lot of the laborers, but such outbreaks as this will do more to discredit the cause than all the open shop propagandists in the country. A wholesale murder cannot be condoned by a people whose first principle is law and order, no matter which side of a controversy may be responsible.

Weary of the tedious progress of the tariff bill in the senate advocates of the measure are making efforts to shut off debate. Under the antiquated rules of the senate there is no way of shutting off debate as long as any one wants to talk except by a two-thirds vote. In this case it is very doubtful if the two-thirds rule will get very far. Opponents of the bill still have much to say and others will stop talking only when shut off by being given some pet schedule for the benefit of their home states. Besides that if the tariff bill is finally passed the bonus bill is to be taken up and that is a piece of legislation that brings a sweat to most senatorial brows. Therefore, keeping up the tariff fight until it is too late to tackle the bonus bill is about the only way out.

Washington and John Adams when occupying the presidential office, were accustomed to deliver their messages in person to congress. Jefferson not being a fluent speaker, wrote his messages and sent them by messenger to be read to congress. This custom prevailed until Woodrow Wilson stirred the nation by breaking away from the time honored precedent and going back to the custom of the first two presidents. The novelty of the thing soon wore off, however, and no comment was made when President Harding followed Wilson's custom. Hereafter this will likely be just a matter of choice with whoever happens to hold the presidential office.

Again the American Federation of Labor under the leadership of Samuel Gompers has gone on record as opposed to bolshevism and against the recognition of the Bolshevik government of Russia. The radical element of the Federation have endeavored to win the organization to the support of the Russian system but so far have failed completely and never will succeed while Gompers heads the Federation.

A man may feel complimented when he is referred to as a "sly dog," but will want to fight if called a pup or hound. Why the difference?

Newspapers are sometimes blamed for departing from the truth but any editor can testify that more kicks come because of telling the truth than because of any misstatements appearing in his paper.

## SPOILING THE NEW MASTERPIECE

## The Forum of the Press

### Roast Pig and Revolution.

(Chickasha Express)  
The legend of the origin of roast pig, as related by Charles Lamb, is a familiar one but always interesting and it lends itself easily to illustrative purposes. It was many years ago in China, as we recall the tale, that a house which happened to be inhabited by some fine, fat porkers, was destroyed by fire. The owner of the swine found them in the ashes and embers, roasted to juicy brown, and, sticking his finger into one of them, he very promptly pulled it out and put it into his mouth to ease the pain. It was his first taste of roast pig, only the raw meat having been eaten before that time, and it was so savory that he immediately took another sample. Then and there roast pig became popular, but it never occurred to the oriental mind that there was any better way to cook pork than by burning down a house. Thereafter there was an epidemic of incendiarism in the country; houses and barns being burned on every hand, property being destroyed to no other purpose than to provide roast pork.

The courts of this country, state and federal, have made mistakes and the same thing is true of legislatures, congress, governors and presidents; private citizens are not infallible in their judgments and even majorities have been known to go wrong, as evidenced by the fact that later their decision has been overturned by another majority. The proposal of Senator La Follette and Mr. Gompers that congress should be given a veto power over the supreme court strikes at one of the foundation stones on which our system of government is built. As simple and harmless as it may appear on casual view, it is really revolutionary in its nature. Our government was founded on system of balances among the three departments, legislative, executive and judicial. There was much difference of opinion in the constitutional convention concerning the powers that should be given to the judiciary and the discussion continued for many years. Thomas Jefferson and others taking the view that too much power was lodged in the courts, but subsequent developments in the constitutional history of the nation have demonstrated that the plan of division of functions, with the system of checks and balances, was the best that could have been devised.

It should be borne in mind that our federal government is strictly one of delegated powers; congress has no authority to do anything except what is granted to it by our constitution. If we are to have constitutional government at all in the nature of things, there must be some source to which we can look for the last word of authority in determining how far congress can go under the powers granted to it, and it was wisely provided that this power be placed in the judiciary. Without this check on congress, the national law-making body would be all-powerful; instead of possessing only the powers delegated to it by the people when the constitution was adopted, congress could arrogate to itself rights that are reserved to the state and to the people themselves, and thus, in place of a government with three departments each operating as a check on the other, we would have a government of one department, because congress, with no restraint on it, could dominate all the departments.

The proposal to give congress power to override the decisions of the supreme court is advanced in behalf of the workmen of the country, because some of the decisions

of the court have been adverse to labor, but is there any reason to believe that the workmen would not suffer with all the other classes of our people, if the safeguards on our rights and liberties, as embodied in our federal constitution, were swept aside? Even though it be granted that some of the immediate ends sought by labor might be gained by changing our system of government, is there good reason to believe that the new system of government will better protect the liberties and promote the general welfare of all the people than the one that has proved effective for nearly a century and a half? Russia has a soviet congress which is all-powerful such as our law-making body would be if all constitutional limitation on its powers were removed, and it has trampled on the liberties of the workman as mercilessly as it has disregarded the rights of the capitalist. Does labor stand to make any permanent gain by creating that sort of congress in this country even though it might win certain things which temporarily look attractive?

If congress is to be given power to over-rule the supreme court, we must recognize the fact that we are abandoning a system of government under which ours has become one of the greatest and most prosperous among the nations. It is true that other nations have become rich and mighty under forms of government different from our own, but we know that for us, our system, despite all its faults and failures at times, has worked successfully, and who can give us any assurance that we would be better off if changes urged by radicals were adopted? Do we want to destroy the house in order that we may enjoy a mess of roast pig?

### Your Brain.

(Hugo News)  
A brain wizard, Chesley M. Hutchings, sits in a room at Harvard University. For three hours 13 professors direct at him a rapid-fire of questions in the form of an examination in "Romance languages and literature."

Hutchings answers every question promptly, accurately. It is such a phenomenal showing that the telegraph wires carry his victory to newspapers all over the country.

Hutchings, it is disclosed, is an expert in 15 languages. That is interesting news, for most of us have difficulty handling one language.

### MICKIE SAYS

"TH' EDITOR SENDS ME OUT HERE TO MAKE KICKS ONCE IN A WHILE, BUT JEST BETWEEN YOU 'N ME, HE THINKS 'HE RUNNIN' HIS PAPER IN BEST TOWN IN TH' COUNTRY. 'N HE SWEARS NOBODY NOWHERES HAS GOT AS LOYAL 'N FRIENDLY A BUNCH OF SUBSCRIBERS!"

## OKLAHOMA COTTON GROWERS ASSOCIATION ELECTS OFFICERS

OKLAHOMA CITY, June 26.—Announcement of the selection of C. L. Stealey as general manager of the Oklahoma Cotton Growers association is made by the board of directors of that organization. Stealey has served the association as secretary and treasurer since its incorporation in April 1921. He will continue to act in that capacity in addition to serving as general manager. Stealey was also prior to the association's incorporation, in charge of the organization campaign in which more than 450,000 bales of cotton have been signed by 36,000 growers.

W. G. Sparks, who as head salesman has directed the sale of more than 91,000 bales of association cotton during the past season will continue with the organization as sales manager.

J. D. Douglass, auditor, has also been retained.

H. L. Anderson will continue at the head of the classing department.

In its meeting last week the board also approved the plan of operation of the American Cotton Growers exchange, a national federation of state co-operative cotton marketing associations formed on the 'Oklahoma Plan.' Nine states are now members of the exchange it is announced.

Trustees representing the Oklahoma association on the board of the exchange last year were re-elected. They are Walter Colbert of Ardmore, R. C. Kennedy of Pauls Valley and Carl Williams of Oklahoma City. Williams is also president of the exchange.

An approaching hurricane may affect the atmosphere and the rays of light passing through it for more than 1,000 miles.

## Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it. When the cause of skin troubles and eruptions is in the blood, it isn't com-

Let S. S. S. Give You An Angelle Skin! Common sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser—it drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a prosperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S. S. S. is also a powerful body-builder, because it builds new and more blood-cells. That's why it fills out bony cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

## PROMOTIONS ANNOUNCED FOR ADA GUARDSMEN

Announcements of recent appointments by the adjutant general's department include the names of Sergt. Kenneth C. Frank and T. W. Fentem of Ada. The first named has been promoted to second lieutenant in second battalion headquarters detachment of the 189th field artillery and Fentem is to be second lieutenant in Battery F, 160th Field Artillery.

## A Great Deal of Your Summer Comfort Depends Upon Your Corset

Perhaps you are still wearing the Corset you have worn all spring because you like it so well. Even so we feel that you will be entirely pleased with a Modart model in a light weight summer style. It will be so much cooler and more comfortable than a heavier model, not only because of its lighter weight but it's greater pliability which gives more ease and freedom.

## MODART CORSETS Front Laced

They are ounces lighter and far more flexible than any corset you have ever seen. Yet they are so cleverly designed that they support the figure perfectly and bring out the wearers' graceful lines to the fullest advantage.

Our expert corsetieres will be glad to show you these new models.

### Favors Germany's Admission to the League of Nations

(By the Associated Press)  
LONDON, June 26.—Asked by Lord Robert Cecil in the house of commons this afternoon whether he could state the government's attitude towards the admission of Germany to membership in the League of Nations, Prime Minister Lloyd George replied that Great Britain would be willing to support a proposal for Germany's admission.  
In answer to Lord Cecil's question, the prime minister said: "This is not a question which concerns Great Britain alone, it primarily concerns Germany herself. So far as His Majesty's government is concerned, we would support a proposal to admit Germany to the league."

## Resurrection of the Dead Near

"Millions now living will never die"—Judge Rutherford

"Marvel not: for the hour is coming in the which all that are in their graves shall hear the voice of the Son of God, and shall come forth"

For the fulfillment of this prophecy millions have hoped and prayed. Possibly you may have lost a loved one through the terrible events of the past few years, and what would you not give to meet that one again in the flesh, as real and personal as before?

In the Divine program the resurrection of the dead is an event due to begin in your lifetime; not in the mystical, darkened chamber of the spiritist, nor in some ethereal existence in the skies, but on the earth and in the literal sense which only the Scriptures are capable of describing. After being awakened from the sleep of death mankind will be instructed in the laws of Messiah's kingdom and be given an opportunity to live forever on the earth in company with millions now living who will never die.

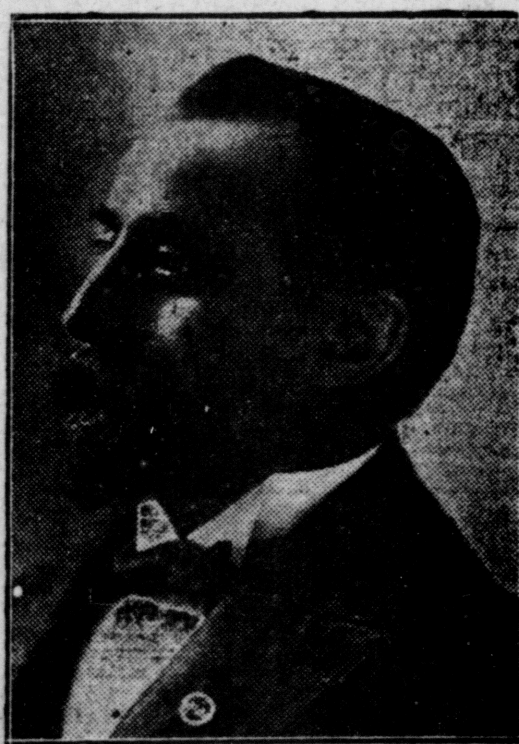

Perhaps you are skeptical, but you will at least be reasonable enough to hear the cogent proofs in the lecture by G. W. Thorn of New York City, N. Y.

TUESDAY, JUNE 27, AT 8:00 P. M. AT THE COURT HOUSE

Judge Rutherford's book, "Can the Living Talk With the Dead?" is a complete expose of the so-called science of spirit communication. It also carefully presents the Bible doctrine of the resurrection, the nature of man, etc. A copy will be mailed to you for 25 cents. Address: MRS. VALLIE PRICE, 320 West 15th Street.

## Ada Independents Trounce Bryant Club 4 to 1 in Slow Game

### YOUNG'S HOMER IN THIRD IS FEATURE

Ada Gets Three Sacrifice Hits for Two Markers; Fielding s Good

Yesterday was a day of sacrifices for the Ada team. Never before have the locals managed to get as many sacrifices in one game—and two markers resulted from the good sacrifice work in the game with Bryant Sunday, making it possible for Ada to win, 4 to 1.

Paul Young's homer in the third frame with R. Waner on put the game on ice, but Young scored again in the fifth when his long fly to left was dropped and which allowed him to go to second. He stole third and was sacrificed home by P. Waner.

In the fourth frame Thussen scored after getting a single and advancing to second on a fumble. He went to third when Norman forced Fain at second and came home when West slammed a long fly to left. Team work yesterday was perfect and the only bad handling of the ball was by Norman, who let two get by, neither resulting seriously.

Paul Waner was not in his best form yesterday, and although he held the visitors to six singles, his delivery was not well controlled. Alexander of the visitors contributed much to the slowness of the game refusing at any time to hurry. He held Ada to five hits, only one of which was for extra bases, but his team mates were not equal to the locals. He pitched masterly ball in the closing episodes however, and in the four last frames no Ada man got a hit.

Waner kept his hits so well scattered that only once did the visitors score. In the fifth Thomas opened with a single, was sacrificed to second and came home on a single by Manley. One fast double play was marked up by Ada in the sixth with Fain, R. Waner and Rutledge composing the team.

#### Play by Innings.

**First Inning.**  
Bryant—A hit, a sacrifice and an error in the opening frame was not sufficient for the visitors to score and the side was retired when Thomas, lead-off man, whiffed, Cullen singled and went to second on Noman's error, and K. Jones whiffed. Manley sacrificed Cullen to third but P. Waner tightened and struck out the retiring player. No runs, no hit, one error.

Ada—Morrison opened with a long fly to center; R. Waner put one in the same place for the second out and Ada was put in the field again when Young grounded out. No runs, no hits, no errors.

**Second Inning.**  
Bryant—Reynolds smacked a single and was followed by a long fly to center which failed to be sufficient for a sacrifice; Blackbird went out swinging and Alexander was just as easy. No runs, one hit, no errors.

Ada—P. Waner started working with a nice single with Vernon doing his running; Rutledge knocked a fly to short; Thussen was hit by the first ball pitched with Vernon going to second; Fain fouled out to P. Jones an was followed by a scratch single by Norman, which was not enough for Vernon to score. The side was retired with the bags loaded when West went out swinging. No runs, two hits, no errors.

**Third Inning.**  
Bryant—Thomas singled but was not given a chance when Cullen whiffed. Manley flew out to right and K. Jones flew out to Fain. No runs, one hit, no errors.

Ada—This was the only interesting frame of the game. R. Waner managed to beat out a bunt after Morrison had grounded out. Young came to bat an hit a hot one on the ground, through second to a homer, scoring R. Waner ahead of him. P. Waner walked; Rutledge was robbed of a hit by center who picked his short fly out of the dirt, and P. Waner was caught off first, retiring the side. Two runs, two hits, no errors.

**Fourth Inning.**  
Bryant—Reynolds was an easy starter. Young to Rutledge and F. Jones went to first on a dropped ball at the third strike; Blackbird and Jackson made it easy for the homelings by swinging to no avail. No runs, hit hits, no errors.

Ada—Thussen singled over second and went to the number two base while the fielders kicked the pill around in the grass; Fain walked but was forced by Norman who sacrificed Thussen to third; West smacked a long fly to left, sacrificing Thussen at home for Ada's third marker; Morrison picked three bad ones and whiffed. One run, one hit, no errors.

### THE SMILE ON THE FACE OF THE TIGER

Ty's winning smile. The Detroit Tigers are now the talk of the American league race. They topped off a brilliant winning streak in the east by beating the lagging Yanks three out of four.

#### Fifth Inning.

Bryant—Alexander was an easy out, P. Waner to Rutledge; Thomas singled and took second on Norman's error; Cullen was out, but sacrificed Thomas to third, who scored on a single by Manley. K. Jones ended the frame by striking out. One run, two hits, one error.

Ada—R. Waner grounded out; Young knocked a long fly to left fielder who dropped it allowing Young to advance to second; he continued the march around the track on a wild pitch and trotted in when P. Waner bunted the ball out of his way. P. Waner was out on the play however. Rutledge retired his side when thrown out by F. Jones. One run, no hits, two errors.

**Sixth Inning.**  
Bryant—Reynolds strolled; F. Jones fanned and a tailor made double started by Blackbird, Fain to R. Waner to Rutledge, ended the fracas. No runs, no hits, no errors.

Ada—Thussen popped out to F. Jones; Fain was thrown out by Alexander; Norman grounded out to Reynolds. No runs, no hits, no errors.

**Seventh Inning.**  
Bryant—Another hit by the visitors was wasted when Jackson retired on strikes, and Alexander was forced by Thomas, R. Waner to Fain and when Cullen forced Thomas by the same method. No runs, one hit, no errors.

Ada—West hit a fly to short and was followed by another fruitless swinging exhibition by Morrison. R. Waner ended the frame by hitting a long fly to left. No runs, no hits, no errors.

**Eighth Inning.**  
Bryant—Manley was thrown out by P. Waner and F. Jones enjoyed the same treatment. Reynolds was easy when he hit a fly to short. No runs, no hits, no errors.

Ada—Young was hit by a pitched ball; P. Waner smacked a long fly to center; Rutledge did the unusual and fanned; Young stole second and then captured third, but "died on base" when Thussen flew out to Manley. No runs, no hits, no errors.

**Ninth Inning.**  
Bryant—F. Jones was thrown out by P. Waner; Fain was given his chance with Blackbird and threw him out and young made it an even break by throwing out Jackson. No runs, no hits, no errors.

#### FROM THE EXCHANGES.

**Wetumka Gazette:**  
The election Tuesday to vote bonds in the sum of Seventy Thousand dollars to erect a new school building and equip same, carried with only four votes against.

**Wetumka Gazette:**  
After carefully considering many applications for the position of superintendent of the public schools the board has elected E. C. Shaw of Caddo. Mr. Shaw has held a similar position in the schools of Caddo for the past eight years and his work has been most satisfactory.

**Stonewall News:**  
Work on the Ozark Trail pyramid was started in Stonewall Thursday morning, and will be pushed to completion as rapidly as possible.

The pyramid will be built of concrete, with electric lights at the top of it. A slate bearing the name of every town on the trail within a distance of 500 miles will be carried on the pyramid.

**Stratford Leader:**  
The ten years old son of Mr. and Mrs. Gather Curless had the misfortune to get a quantity of lye in both eyes one day last week. The local doctors and the parents did all in their power for the child. He was taken to a doctor at Pauls Valley and he was pronounced out of danger.

## They Slammed Joke out of Baseball

While the great pitching of Lee Fohl's young hurlers, the

Three interesting views of George Sisler as the fans see him.

brilliant playing of McManus and Ellerbe in the infield and the clouting of the outfielders are all playing a part in the successful campaign of the Browns this year, any close follower of the St. Louis team will tell you that the dashing, heady George Sisler

is the mainspring of that club. His work at first is always little short of marvelous. His batting is always timely. His base running is daring. His fighting spirit and compelling personality draw the entire team into a winning gait.

## YANKS MAKE SORRY SHOWING FOR CHAMPIONSHIP BASEBALL OUTFIT

(By Norman E. Brown)  
Any baseball team looks bad when it's losing generally speaking. But, to my mind, the American league champions, the Yankees, give about the poorest exhibition of baseball and sportsmanship on record when they see a game slipping.

They crab at each other, bait the umpires, snarl, throw the ball around the lot, become stubborn and disrespectful in a childish manner in general.  
A losing streak such as the Yankees entered upon recently, will make the members of any aggregation somewhat touchy. But they will continue to play heads up baseball. The Yankee team becomes almost demoralized under such conditions.

I saw the Yanks lose their eighth straight game the other day. The Indians hammered Carl Mays and turned the trick.

Mays crabbed from the start. He

labeled Babe Ruth when the Babe

made a vain but fairly accurate throw home to nab a runner. He slouched disgustedly about his box when the umpire called the wide ones.

Wallie Pipp took time out to publicly bowl out Mike McNally when Mike accidentally bumped into Pipp as the first baseman was taking an infield pop.

A couple of infielders pushed Umpire Dineen about when he called a close one against the Yanks at second.

Babe Ruth used such vile language protesting the same play that he was ejected from the game. He left the field with a mocking sneer.

And one of the outfielders seemed unconcerned when his throw accidentally knocked out a Cleveland player round first. The Yank was the last man to reach the stricken player.

Altogether a sorry looking outfit to be called champions.

## Young Did It! Bar College Stars In Money Football

(By the Associated Press)  
COLUMBUS, O., June 24.—Steps will be taken at the meeting of the American Professional Football association, to be held in Cleveland, today and tomorrow, June 24 and 25, to strengthen the rule which prohibits the use of college players on professional clubs. Joe E. Carr, president of the association, announced here today.

Among the 22 clubs affiliated with the association last year, only one violation of college player rule was reported and that club was dropped from membership. Mr. Carr said. The rule which formerly only carried as a penalty expulsion from the association now provides for a \$1,000 fine.

Future games of the Association, President Carr said, will be handled by officials appointed by the president, thus eliminating the former practice of officials being chosen by coaches of the contending eleven.

At the meeting applications for membership from the following cities will be acted upon: New Haven, Conn., Duluth, Minn., Sioux City, Ia., Toledo, O., Youngstown, O., Milwaukee, Wis., Green Bay, Wis., and Racine, Wis. Other business of the meeting will include adoption of a new constitution and by-laws and consideration of new rules providing for fines ranging from \$25 to \$1,000 for various violations and a salary limit rule.

Among cities which will be represented in the association this year are: Buffalo, Rochester, New York, Philadelphia, Canton, Columbus, Cleveland, Akron, Dayton, Cincinnati, O., Chicago, (two teams), Detroit, Evansville, Hammond, Ind., Louisville, Ky., Rock Island, Ill., and Minneapolis, Minn.

Dewey Neal, news editor of the Ada Evening News is out of the office this week, spending the time in Oklahoma City and other cities of the state. He will be back on the job the first of next week.

### JACK JOHNSON AS HE APPEARS TODAY

Jack Johnson working out at his Columbus, O., training camp.

Jack Johnson, former heavy-weight champ, is now training for his first fight in years. He is to meet Tut Jackson, Ohio flash, at Washington Court House, O., July 4. If Arthur has grown quite a tummy, it would seem.

## FIVE OF WORLD'S STARS WILL MEET

Swimming Title Races To Open Tonight With U. S. Meeting Hawaii.

(By the Associated Press)  
HONOLULU, T. H., June 23.—Five national swimming championships, including the 100 yard men's open free style—the blue ribbon event of the natorial world—are at stake in the three-day open water meet which will begin tonight in Honolulu harbor under the auspices of the Hawaiian association of the A. A. U. with Johnny Weissmuller, the "human hydroplane" of the Illinois Athletic club, competing for supremacy against the fastest swimmers Hawaii has to offer.

Weissmuller's leading opponents are Pua Kealoha, holder of the 100 yard championship, which he won last year in 53 seconds, equalling the world's record established by Duke Kahanamoku; Warren Kealoha who defeated the Chicago youth in the 50 yard national free style championship in the tank meet here last month, and W. W. Harris, who finished second to Weissmuller in the 100-yard free style tank race.

#### Finish Is Close

Despite the fact that the five nare to be decided, attention here centers in the one hundred yard backstroke race, scheduled for Saturday, because of the close finish and record-breaking time which characterized this event in the tank meet. Weissmuller was declared the winner of this race by the judges, but five of the six timers, believing Kealoha won, took his time, which was announced at one minute, four and four-fifths seconds. The one timer, who clocked Weissmuller, caught him in 1:03 flat.

The announcement of Weissmuller winner drew jeers from spectators who believed that the race had been won by Kealoha or had been a dead heat.

The former world's record for this event was 1:06, established by Warren Kealoha. Both Kealoha and Weissmuller applied for the new record-Weissmuller on the ground that he won the race and Kealoha on the contention that 1:04 and four-fifths was his time. The situation is believed to be new in athletic annals, and the outcome of Saturday night's race, which is regarded as a "run off" between Kealoha and Weissmuller, is awaited with great interest.

The trials for the national championships will be held tonight. As an added attraction, the best swimmers in the islands and Weissmuller will race a special 440 yard free style event in which Weissmuller will attempt to break the world's record of 5:14 and three-fifths held by Norman Ross. Weissmuller will continue to the 500 yard mark in an attempt to lower Ross' time of 5:58 and 4-5, and also will keep on to the 500 meter mark in an attempt to wrest the record of 6:44 and 2-5 from Ross.

Early in tomorrow night's program Warren Kealoha will attempt to repeat his victory of the track meet over Weissmuller in the 50 yard free style. He will have additional competition in the person of Pua Kealoha, who did not enter the tank events in order to save himself for the open water races. The 200 yards men's national junior breaststroke race tomorrow night is expected to set a new record, as is the 400 yard national junior girls relay, which follows the breaststroke on the program.

The 100 yard men's free style has been placed near the middle of the program in order to permit the swimmers as much rest as possible between the important events.

**Backstroke Feature.**  
The 100 yard backstroke for men will be the feature of the Saturday night races, together with the 440 yards junior national girls free dive and the national junior high dive for men. In addition there will be a 220 yards men's open free style race on this night. Weissmuller's time for this race in the tank meet was 2:15 and 3-5ths, which broke his former world's tank record of 2:17.

The meet is being given in honor of the Nobles of Mystic Shrine who arrived today on their pilgrimage to Hawaii following the annual convocation at San Francisco.

## Brilliant Lights of Tennis Fame To Match Skill July 3

INDIANAPOLIS, June 24.—Champions and former champions and those who are on their way up to tennis fame, have entered the 12th annual clay court championship tournament, to be played here beginning July 3.

William T. Tilden II, national champion, Zeno Shimidzu, the Japanese star; Samuel Hardy, captain of the American Davis Cup team; Charles Garland of Pittsburgh, R. A. Holden of Cincinnati, and Joe Armstrong of St. Paul, are among the early entries. It has been announced R. Norris Williams II, former national champion and a member of the Davis Cup team; Vincent Richards, the sensational New York youngster; Howard Voshell of Brooklyn, who stood eighth in the 1921 ranking, also are expected to compete. In addition, entries also have been received from Walter Westbrooke, former University of Michigan star; Wray Brown of St. Louis, Alex Squires, the Chicago veteran, and Johnny Hennessey, Fritz Bastain and Ralph Burdick, the best players in Indianapolis.

Throughout the country the only clay court championship tournament is regarded generally as of greater importance than any other tennis event with the sole exception of a national play at Forest Hill. The prominence of the tourney may be judged from the winners of the title for the past eleven years. On this list appears the names of Walter T. Mayes, R. Norris, William H. John R. Strachan, Clarence J. Griffin, Willis E. Davis, Samuel Hardy, W. T. Tilden II, W. M. Johnston and Roland Roberts.

## FLIERS TO GIVE FINAL AVIATION CIRCUS SUNDAY

LAWTON, June 24.—Extensive preparations have been made by officers and men at Post Field for a farewell air circus to be given tomorrow afternoon. The circus will be the last at the flying field before the personnel and equipment is transferred to other aviation stations pursuant to a recent order of the War Department. Thirty officers and 120 men will participate in the demonstration.

Twenty-eight airplanes will be used in the course of the afternoon's events which will extend over a period of from three to four hours. One of the features of the circus will be "wing walking" by Sergeant Leslie Wells and "stunt" flying by various army pilots. Officers in charge of the demonstration said that one event will consist of eight planes each doing "stunts" at various altitudes simultaneously, the highest being 4,000 feet.

Another feature to which the officers called attention will be a parachute demonstration. Planes driven a few feet from the ground will be used to make the handling of parachutes plain to spectators, they said. Parachute races and parachute jumps from planes at high altitudes will also be on the program.

A tug of war between an airplane and a truck will open the program, the officers said. Feature races including a "wheel barrow" airplane dash and a 20-mile low altitude race, and a sham battle between a number of airmen will also be on the afternoon card. The final event of the day will be a farewell formation in which all pilots at the field will participate.

## DANDRIDGE &amp; KERR

Let a News Want Ad get it.

Ogell Moore has joined Troop 10 and passed all tests. His badge will be awarded by members of the troop committee next Wednesday evening.

Don Montgomery and Morgan Carroll are new members of Troop 7. Badges were awarded to each last Friday evening by troop committee-man S. M. Shaw. Scoutmaster Everett of Troop 10 was a visitor at the troop meeting. Plans have been made to take members of Troop 7 to the scout lodge tonight.

Troop 8 has accepted Haskell McManus as a member. The boys spent Friday night at the scout lodge.

Troop 5 has been adopted by the Men's Bible Class of the First Christian church with Roy Meeks as new scoutmaster. A troop meeting will be held at the church next Monday evening. Dr. A. Linscheid, E. C. Wilson and L. T. Walters of the Men's Bible Class, did much towards persuading the class to purchase flags and uniforms for the troop.

Troop 4 is now meeting in the new Sunday school building of the Methodist church. Edgar Allen Poe, scoutmaster, reports 25 interesting meetings last Thursday evening.

A scoutmaster's meeting was held at the Christian church this week.

Troop 9 will meet from this date on in the high school annex building. Plans are being made to decorate the new quarters in a "real scout manner."

Clinton Van Curen of Troop 2, Fred Abney of Troop 7, received merit badges at the last court of honor meeting. Hoyt Pryor and Creston Threlkeld received first class badges.

Scout Executive Harry W. Miller reports that he is planning big things for scouts this summer.

Plans are being made for a baseball league for Wolf Cubs and for water contests. Meetings of all cub packs in the city will be called within a few days and cubs are asked to get in touch with cub masters.

## MORE THAN 1,000 ATTEND BAPTIST SUNDAY SCHOOL

All attendance records were shattered Sunday morning when the First Baptist church closed its drive for a total of 1500 people, although only 1059 of this number was reported. Each class reported a larger attendance Sunday than ever before, and those who worked all last week in the drive to get 1500 people out, expressed themselves as being highly pleased with the results.

Only one division of the church succeeded in obtaining the quota set for it, this being the primary department. It had been asked to obtain 200 members and reports showed that a total of 225 attended. All other departments fell short in quotas set for them. No records in the city show a larger attendance at any church for one day than that made yesterday, workers stated today.

The Men's Bible Class at the McSwain theatre had 270 present, a new high record for that class. Other departments reported the following attendance: Primary 225, juniors 116, intermediates 129, adults 279 and Portland Park had a total of 40. Many new faces were to be seen in each department, teachers report and church officials believe that great benefit in attendance will result from the efforts.

Rev. Clyde Calloun Morris today said that he was more than pleased with the church results yesterday. Several conflicts came up which were credited with contributing to the failure to get the 1500 people, but he declared that a total of 1059 was so gratifying that he considered the drive a complete success.

## CUNNING RETURNS FROM LIONS MEET AT HOT SPRINGS

C. E. Cunning, president of the Ada Lions Club, returned from Hot Springs Saturday night where he attended the national meeting of the Lions Clubs. He reports a rousing meeting and great enthusiasm.

Muskogee sent a jazz orchestra which did much to advertise the Oklahoma city. Shreveport, La., also had a big band. Oklahoma City was well represented and succeeded in getting one of the members elected president of the body for another year.

As an indication of the enthusiasm that many Lions are getting, Mr. Cunning cites the fact that clubs in California sent all the delegates they were permitted to have. Pep was manifested on all sides, and the desire to be of service to men and make the various communities better places in which to live was demonstrated.

## College Campus

Supt. E. D. Price, of schools at Enid, has arrived in the city and beginning at 3 o'clock this afternoon will deliver a series of two lectures to the class in lectures at East Central. While here he will also meet groups in the history department and speak on the history of education.

Dean Babcock, dean of graduates at the Illinois University and president of the North Central Association of Colleges, of which East Central is a member, will be in the city Thursday and Friday to lecture to East Central students.

The 1 o'clock period Tuesday has been set aside for county organization work. Dr. A. Linscheid is called the meeting of counties said this would include the election of officers for each county organization and a director for the East Central association. Each county organization will be given the authority to name entertainment dates and other affairs for groups during the summer session.

DOINGS OF THE VAN LOONS—It all depends on whose troubles you are laughing at, according to Father.

By F. LEIPZIGER

# Farmers' Column

By Byron Norrell

R. J. Kennon has our thanks for some nice Irish potatoes from his truck farm at Latta. He stated that he harvested 30 bushels from a bushel and three pecks of seed planted. Mr. and Mrs. Kennon built a combination residence and store there the first of the year and moved to it from Ada March 11. Their patch of land had been in cotton the year before and was well set in cockleburrs, but they soon changed the appearance of things and when I visited them about a month ago their garden and truck patches looked fine. The potatoes indicate that they have done well with their truck growing. They also have about 200 chicks.

I made a flying trip to Uncle Nat and Will Hisaw's places on Jack Fork Friday afternoon to see what they are doing in the way of fighting the boll weevils. I knew their cotton was farther along than the average and thought this would be a good place to see what is being done. The two patches I was in are more than knee high and putting on forms rapidly. They will be blooming inside of another week. Some weevils had been at work as was indicated by a stung square here and there although I actually found only one weevil. Uncle Nat was not at home and I did not have a chance to talk with him about his plans to fight the bugs. Last year he and Henry Teel who worked with him brought in the first two bales of cotton. Uncle Nat told me that he planted that the first of April and made a fair crop before the weevils became thick enough to ruin it.

I found Will Hisaw gathering a load of roasting ears to bring to town. These were the second I have seen this year from the fields. He told me to help myself and I took on an armful to keep from starving until some other charitable friend made another contribution to the good cause of keeping the editor alive. Will had just finished plowing his cotton. He had a brush on his cultivator and had evidently knocked off and covered most of the infested squares as I did not see many. He said he intended to keep it up and perhaps attach some drags to his cultivator later.

J. W. Waters of the same neighborhood was plowing his cotton. It was not as far advanced as the Hisaw patch but he was beginning his fight early, using a brush on his cultivator to sweep the stalks. He has 20 acres of cotton and said he expected to put up the best fight he knew how to save his crop.

This neighborhood got a share of all three rains which fell at Ada on the 17th, 18th and 19th but only a sprinkle fell at Stone-wall and northeast. However, even where no rain fell crops are not suffering yet. Just about all the small grain is now in the shock. Corn on the bottom farms from Frisco west never looked more promising. It is in silk now and with a little more rain will make a bumper crop. Will Hisaw has a patch which he said looked good for 50 bushels per acre until the wind struck it and blew over quite a bit of it when it rained last.

The cotton course offered at the A. & M. college beginning July 5 promises to be of unusual interest and highly beneficial. Tuition is free, but a registration fee of \$2.50 will be charged. All phases of the work of production, marketing and grading and other matters will be taken up and handled by men who are experts in their particular lines. Even the boll weevil will come in for attention and demonstrations of methods of control will be given. The daily sessions will extend from 9 a. m. until 4 p. m.

Following is a partial list of the subjects covered at the school:

- Purposes and plans of cotton school.
- Ginning as it affects market value of cotton.
- Fertilizers and rotations for cotton.
- Insect enemies of cotton.
- Oklahoma cotton growers association.
- Livestock for Oklahoma cotton farms.
- Feeding hogs with cotton seed products.
- Spinning value of cotton.
- Cotton marketing from a practical business standpoint.
- Transportation in marketing cotton.
- Preparation of seedbed for cotton and cultural methods.
- Care and management of gins and gin machinery.
- Warehouses for protecting cotton and as a business adjunct to orderly marketing.
- Country damage.
- Proper covering of cotton.
- Handling cotton.
- What is meant by a "hedge" as applied to future contracts and its value.
- Cotton production under boll weevil condition.
- Experiments and experiences in breeding cotton.
- Cotton storage and warehousing.
- Diseases of cotton.
- A safe system of farming for Oklahoma.
- Why the ginner should know cotton.
- What the Oklahoma farmer can do to improve the grade of his cotton.
- Value of cotton experimentation to cotton men.
- Why the farmer should know cotton grading.
- Importance of the public classer to the public.
- Cotton marketing work of the bureau of markets.
- Shipping, bills of lading, invoices and drafts.
- Classification of seed cotton as compared to bale cotton.

## SILK SWEATER OF UNUSUAL DESIGN

The pure silk sweater will always be the aristocrat of the sweater world and the white flannel skirt of the skirt world. Worn together they make a costume which has no peer. This sweater is unique in its color and barred effect. Red is the predominating tone.

Cotton as a cash crop or its place on the farm. Tricks in the cotton trade. The purpose of cotton demonstrations.

Food value of cotton seed. Cotton seed selection or judging cotton seed for planting. Improvement of cotton.

Making the cotton crop more profitable. Value of uniform standards and grades.

Future and spot markets. Preparation and distribution of official cotton standards.

Spinning qualities of different grades, classes and varieties of cotton. Advantage of classing cotton before sale.

Marketing cotton on a basis of true value. Organizing on a community basis for growing cotton of a single superior variety, etc.

**Oklahoma Crop Notes.**  
Oklahoma City, June 24.—The State Board of Agriculture has again this year had many requests relative to the extermination and control of the cotton boll weevil. The board has deemed it wise to carry on a campaign again this year, and is having bulletins printed containing short, concise methods used by successful cotton growers in combating this pest. This bulletin, along with a letter, will be mailed to cotton farmers throughout the cotton section of the State.

The use of calcium arsenate is recommended in this bulletin for bottom land cotton, where the farmer is properly organized, able to buy at the proper time, has the proper equipment, to dust it thoroughly and the inclination to do it thoroughly and as often as needed. It must be remembered, however, that there is only arsenate enough in the United States for treating one acre in every sixty. Oklahoma must grow a cotton crop this year; we need it and by good judgment and persistent effort, we can grow it. Anyone interested in this bulletin may have a limited number as long as our supply lasts.

A meeting of the Oklahoma Division of the Southwest Wheat Improvement Association was held in the office of the President of the State Board of Agriculture on June 23rd. Resolutions passed asked for the principal railroads hauling wheat for an inter-changeable train of ten or fifteen days for the purpose of carrying on a campaign urging early preparation of soil, and for the more appreciable distribution of better seed wheat to the farmer.

The A. and M. College is the only one of the kind in the State. It is a place where the farmer can get the best of everything. It is a place where the farmer can get the best of everything. It is a place where the farmer can get the best of everything.

official cotton school in the state of Oklahoma, and is provided for by the state for the citizens of our state. The eighth annual summer cotton school will open at the college July 5th and will remain in session until July 29th. A course in grading, marketing and growing cotton will be given for the benefit of the grower, the buyer and the ginner, marketing and grading will be considered. Students may enter at any time during the course, but it is advisable for them to start at the first day and take the entire course. A certificate will be awarded to those who complete the course in a satisfactory manner.

Mr. W. T. Seney of Farris, Oklahoma is said to have been working sixteen years trying to develop a type of corn that is his ideal. He has succeeded in developing corn that is almost as early as sweet corn. At present his corn is almost in roasting ear stage. The vigorous early stalks have been flagged and from these next years seed will be selected. Last year this variety of corn produced roasting ears in sixty days—planted May 5th; the yield in the bottoms was 60 bushels, while that on the uplands was 30 bushels.

Reports from the Chamber of Commerce of Poteau, Oklahoma, indicate that Irish potato shipments from sections in LeFlore county have brought to the growers approximately \$150,000; fruit shipments so far \$25,000. Efforts are being made by interests in this country to put that section on the map as a cantaloupe and watermelon producing; it is also indicated that poultry raising is becoming more and more attractive in this section.

A representative from the Board of Agriculture has just returned from a tour over the main wheat belt of our state. His information is, that considerable wheat has been abandoned since the last estimate in May. This together with the injury caused by the green bug and a fungus known as black chaff appearing in spots over wheat fields will undoubtedly change the last estimate of 31,730,000 bushels. Whether a material change in the forecast of last month will be affected by those factors will be seen in the next report of July 8th.

In many places in the wheat fields this Black Chaff has appeared and left the heads almost barren. The fungus, however, is not general over the wheat section. With very favorable weather during the past three weeks, the wheat has seemed to mature too quickly in many instances, the heads turning white instead of the usual golden color.

The board has only had scattered reports of tested weights, running from 58 to 61. A sample of wheat from Garfield county tested as low as 45; this sample however had been injured by Black Chaff. The gluten and moisture content are both testing low in the few samples tested, this probably due to the dry harvest and in many cases to the green bug.—J. A. Whitehurst, president state board of agriculture.

**Produce Market Bulletin.**  
Chicago, June 24.—The heaviest production of butter for the entire country so far the present season seems to have been the past week. Production from now on should show a gradual decrease, governed by the pasture conditions. On account of good demand for current use and storage purposes, the market has worked slightly higher.

Production of eggs is normal for this season of the year. The consuming demand is not as heavy as previously, and the amount going into storage is about normal. Prices have shown some decline. On account of demand being for fine stock, best prices are being paid for eggs from northern sections.

The movement of live hens continues heavy for this time of year and all markets are on a lower level.

Spring chickens are moving in larger quantities and prices are working lower, which is usual for this season.—Swift & Company.

**TWO ARRESTS MADE IN WILSON MURDER CASE**

LONDON, June 26.—A verdict of wilful murder against James Connolly and James O'Brien, was returned this afternoon by the coroner's jury in the inquest of the killing of Field Marshal Sir Henry Hughes Wilson. The accused men, who were arrested immediately after the crime, did not attend today's hearing on advice of counsel.

## Notice To All Automobile Owners

There are SIX vital points in operating a gas motor:

1. Lubrication is the life of a motor.
2. Change the oil in crank case every 800 miles at least.
3. Never change the oil in crank case without washing case. (Reason): The grit, babbitt and steel settles to the bottom and is left to circulate through the new oil and acts as sand paper on the bearing. Do not flush case with kerosene because the danger of explosion and because the kerosene left in case will cut the body and impair the lubricating value of the fresh oil.
4. Use an oil that has stood the government test.
5. See what you are paying for and guard against paying a high price for a cheap grade of black oil.
6. Stop at the A-1 Filling Station on West Main near Frisco Station. I WASH the crank case CLEAN of all grit and ground up steel FREE. We handle the best of Oil and Gas—Texaco products. I show you the oil before you buy.

VISIBLE OIL AND GAS shows both quantity and quality.

A. G. ADAIR

ADA, OKLAHOMA

## SOCIETY

**Miss Jewel Morris Entertains.**  
Miss Jewel Morris of 801 W. 10th street entertained with a lawn party Friday evening. After several hours spent in playing games and dancing they were served with ice cream.

Those present were Misses May Miller, Lona Smith, Ellen Wells, Belle Mickle, Lena Simpson, Lee Gannell, Nellie Potes, Norte Smith, Lillie Jordan, Myrtle Savage, Jewel Morris, Charlie Enloe, Dewey Hall, Earl Hatcher, Henry Bennett, Dewey Smith, Clarence Broadway, Harvey Mullinax.

## Celebrates 95th Birthday.

Mrs. Elizabeth Pride of 721 West Twelfth street, Sunday celebrated her 95th birthday. She had as her guests her daughter, Mrs. Florence Griffith and grand daughter, Mrs. Cae Smith, of this city, and her son, W. A. Pride of Ardmore, and two granddaughters Mrs. Cap Haran and Mrs. Lockie Burry of Brunswick, Ga.

Mrs. Pride is enjoying fair health and states that she was greatly pleased to have her children with her again. This was one of the most notable family reunions of the season.

**Heard-Morgan.**  
Miss Amy Morgan of this city was quietly married to William I. Heard of Holdenville at two o'clock Sunday afternoon at the home of Rev. B. F. Stegall, 412 West Tenth street.

The couple left immediately for Holdenville where they will make their home. He is a former resident of this city and has many friends here. She has lived a number of years in this city and is well known.

## Picnic at Sulphur.

Employees from four offices of the Oklahoma Light and Power company went to Sulphur Sunday afternoon to participate in the first annual picnic for employees of this company. Shawnee, Ardmore, Durant and Ada office employees attended.

Those from Ada who enjoyed this affair were Misses Ludie Hawkins, Pauline Tidwell, Ruth Gibson, Golden Williams, Mrs. Molly Settles and daughter, Mr. and Mrs. George Roberts, R. K. Lane, E. L. Brown, W. L. Brown, R. D. Renick and Cliff Dorsey.

Reports today were that a most delightful time was had. Lunch was carried by the four parties, all going overland. After supper had been eaten, the entire party went swimming, kodaking and otherwise enjoyed themselves in the Platt National park.

## Mr. and Mrs. Francis A. Rubright Entertains.

A pleasing event of the season among the younger set, was a party given Friday night by Mr. and Mrs. A. Rubright at their home, on North Francis avenue. Music and games were the features of the evening, at a late hour, assisted by little Miss Francis Coe, Francis Bronaugh and Dortha Wells. Mrs. Rubright served delicious refreshments to the following guests.

Misses Maude Sutherland, Lona Style, Francis Fussell, Bonnie Dobson, Vernice Bronaugh, Opal Calhoun.

## WILL DELIVER LECTURE ON RESURRECTION

A free lecture by G. W. Thorn of New York City will be given at the court house Tuesday evening beginning at eight o'clock. His subject will be "Resurrection of the Dead Is Near," according to an announcement today.

Dr. Thorn is being sent here under the auspices of the International Bible Students association, organized by the late Pastor Russell. No charge of admission will be made and no collection will be asked, local people in charge said today.

He will speak at length on the subject of the resurrection of dead and of millions living will never die. Other speakers have talked on this subject previously, but those in charge of this speaking say Mr. Thorn is probably the most able man to explain the subject that has ever been obtained to speak here. An invitation is extended to the citizenship of the city to attend tomorrow night.

## Obituary

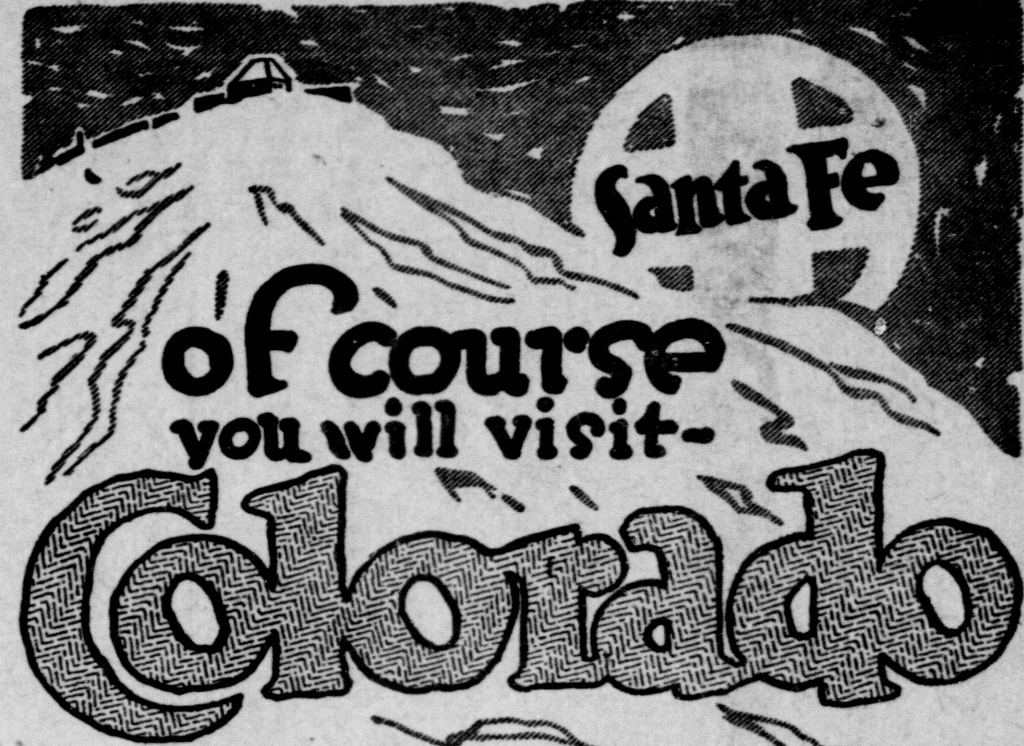

Vivian Hodson, the two year old daughter of Mr. and Mrs. T. L. Hodson, died at the family home at 225 West Thirteenth street at 11 o'clock last night. Services will be held at the residence this afternoon at 2:30 with Rev. Nettles in charge. Burial will take place in Rosedale.

## GOV. SMALL ACQUITTED BY ILLINOIS COURT

(By the Associated Press)

WAUKEGAN, Ill., June 24.—Governor Len Small was acquitted today of conspiring with Lieut. Gov. Fred E. Sterling the late Senator Edward C. Curtis and Vernon Curtis, Grant Park banker, to defraud the state of interest money on public funds. The jury was out one hour and thirty-five minutes.
